EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sean A. Kaufhold on 11/03/2005.

The application has been amended as follows:

In claim 1, line 1, the word "original" has been replaced by --amended--.

In claim 5, line 1, the word "original" has been replaced by --amended--.

REASON FOR ALLOWANCE

2. Merry discloses an inflation device for a bicycle tire comprising a pump assembly including a housing, a bracket attached to the housing, an actuator mechanically coupled to the pump assembly, said actuator including a bearing roller rotating along an axis parallel to an end wall of the housing is coupled to a disk member attached to a frame of the bicycle such that the roller travel upon the face of the disk thereby reciprocating the piston back and forth within the cylinder. Wickersham et al disclose an inflation device comprising a gear train which drives a reciprocating shaft thereby actuating a pump of bicycle. Hultin discloses an inflation device for automatic inflation of a bicycle tire comprising actuation of a pump using a wheel fixed to the axle to turn the pump. Cheng discloses an automatic tire inflation system comprising a piston which

is reciprocated by contact with a stationary cam to provide pressurize air to the tire. However, none of the references of record suggests an inflation device for automatic inflation of a bicycle tire comprising a plate extending to the axle of the bicycle, said plate being selectively abutted against the disc such that said disc rotates when abutting said plate, wherein a rotational axis of said disc is oriented perpendicular to the first end wall of the housing in the manner defined in the instant claims 1, 5 and in combination with other limitations of the claim. Therefore, claims 2-4, depending therefrom, are considered to be allowable.
